

The Factor Game

NAME _____

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31	32	33	34	35
36	37	38	39	40	41	42
43	44	45	46	47	48	49

This is a two player game. The first player begins by choosing any number and coloring it the first player's colour. The second player identifies all of its factors, colouring them a second colour. The second player then choses a new number, colouring it in. The first player then identifies and colours those factors their colour. Play continues until no new numbers can be selected.
